The Visual Images Group will not be responsible for any injury, loss or damage, however caused, to the person or property of any visitor to studios or other premises listed in this directory. Whilst every effort has been made to ensure that picture quality is optimised, we do not hold any responsibility for the limitations of the printing process.

Every year in June the bright yellow Bucks Art Weeks signs go up across the county of Buckinghamshire, and just across its borders. Often these are put up by individual artists and makers who have found the courage to open up their own homes or studios to exhibit work to the public. Sometimes they are put up outside venues such as galleries, arts centres, churches, barns and village halls where groups of artists gather together to create their displays.

As a visitor you might decide to visit open studios on your doorstep to support local participants and to consider buying work made very locally. Other visitors plan tours around their area using a town art trail issued separately, and can easily spend half a day meeting many of the artists, fuelled by a morning coffee or afternoon tea (this directory shows which venues offer refreshments).

Why not join many other adventurous visitors who plan a trip further afield? Use the map on the inside back cover to see the locations of the artists county-wide. Consider a day trip to North Bucks, the Vale of Aylesbury, the Chilterns, South Bucks or the Thames Valley and get to know the area through its creatives, combining lunch or a walk.

By going to the website www.bucksartweeks.org.uk you can decide on your stop-offs by looking at the online gallery belonging to each artist or maker, and use this directory to check opening dates and times, parking, access and whether it's a working studio with demonstrations. Keep an eye on our social media for images and updates, and please do give us feedback on your Bucks Art Weeks experience.

How to use this directory

On the inside back cover is a map showing the location of the artists over four regions of Buckinghamshire and just beyond the county boundaries. Colour-coded sections of the directory correspond to these regions.

Use the map to find artists on your doorstep or plan a trip further afield. You can browse to see which pictures catch your eye, or look up artists, working studios, or art categories in the index.

Check dates and times here and confirm these on our website. We hope you enjoy seeing the artists' work and remember, not all venues take credit cards should you wish to make a purchase.

JOURNEY ACROSS BUCKS ... AND BEYOND

Buckinghamshire has a rich and varied landscape. The deep rural north of the county stands in contrast to Metroland and the Thames Valley in the south. It would take more than an hour to drive the length of the county – 68 miles from Olney to Marlow – but in between is a wealth of easily accessible countryside and interesting towns and villages, home to hundreds of talented artists exhibiting their work for Bucks Art Weeks. This event also breaks the boundaries of the county to include those just over its borders.

North Bucks

The gently undulating farmland of North Bucks is disturbed only by the metropolis of Milton Keynes. Beyond that it is typified by shallow valleys, unspoilt market towns, thatched cottages and timber framed houses. Buckingham was the county town from the 10th to 18th centuries, but is now famous for the landscape gardens of Stowe National Trust.

At Wingrave nine artists working on paper, and with clay, glass and textiles have formed a group at Field View Studio. Among them is Tamsin Jolly who creates linocuts inspired by flora and fauna discovered on local walks and in her garden, and their associated folklore. She works without a press to carve and hand burnish – a real labour of love. Each print is unique with subtle variations, making printmaking so refreshing in the digital age.

The Vale of Aylesbury

Flat, open arable fields surround our county town, and inevitably these are dissected by many rivers, canals and reservoirs. The valley once made easy passage for the Romans along Akeman Street and was the perfect location for the country homes of the Rothschild family during the 19th century.

Just into the foothills at North Marston, Marc Fraser produces beautiful and functional pots which are hand-thrown in stoneware clay and porcelain.

These are then glazed in exquisite blue and green layers using a wax resist, creating an effect reminiscent of watery landscapes and sky.

The pottery is located in a 17th-century thatched barn in a village that boasts its own community shop and cosy pub. Waddesdon Manor is only a 20-minute drive away.

Chilterns and South Bucks

The river valleys of the internationally rare Chiltern chalk streams, the Misbourne and the Chess have their source at Great Missenden and Chesham. The Misbourne flows through Amersham and the Chalfonts, while the Chess feeds into the River Colne at Rickmansworth. In much the same way, a large percentage of the local population navigate their way by rail towards London every working day. Beyond the commuter belt is the Chiltern Hills AONB, famous for its beech trees, orchids and bluebells.

Paul Chappell is a professional illustrator who enjoys sketching and watercolour painting in his spare time. He has a particular love of drawing people in the environment. Paul is joining with six other diverse artists at The Good Earth Gallery, Chesham to display his very recognisable country scenes and townscapes composed 'en plein air' rather than from photographs.

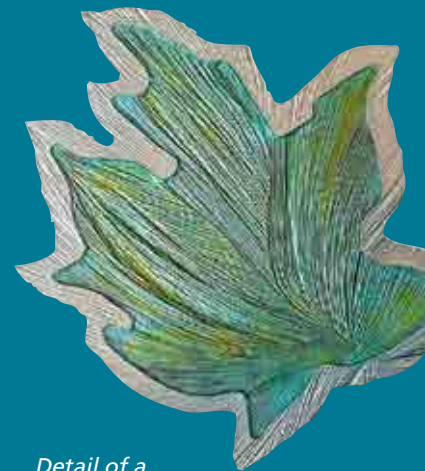

Chilterns and the Thames Valley

The M40 motorway was blasted through the chalk of the Chiltern escarpment south towards High Wycombe, only miles from such beauty spots as the Hambleden Valley, where the brick-and-flint cottages of Fingest and Turville have connections to many TV and film productions. Beyond the hills, the River Thames is at its loveliest in the Georgian market town of Marlow.

Our cover artist Christine Bass paints her contemporary landscapes using acrylics with a collage base. Many of these are inspired by the Ridgeway Path and the Chilterns countryside. Strong lines and shapes, flattened planes and saturated colour characterise a style that has won her many accolades. She is exhibiting among nine artists who are showing paper sculpture, ceramics, mosaics and jewellery at the medieval St Dunstan's church in Monks Risborough. It's Christine's 18th year of Bucks Art Weeks and 30 years of participation for St Dunstan's.

I create in my garden studio, tucked under the Grand Union Canal in north Milton Keynes. I am recognised for mixed media and textiles, including a distinctive collection of eclectic lampshades, vibrant textiles, and captivating abstract paintings.

My British wildlife paintings "From the Air to the Sea" are vibrant fine art paintings inspired by my passion to protect our natural world. I use acrylic paint on canvas to capture the beauty of our British wildlife. Stars, spirals and mandala patterns represent the creature's spirituality.

Elena V Miller is a British-Romanian visual artist and illustrator based in Milton Keynes and will be exhibiting a collection of character and story illustrations in the Barn Gallery at the Westbury Arts Centre.

Ken & Kathryn work on the engrossing craft of glass fusing in a small studio in Bletchley. They have developed different styles of work and will be exhibiting a variety of our pieces in the Barn. To meet them, please get in touch to check when they will be onsite, or to fix a time to meet up.

I create dyed, printed and embroidered textiles, building layers of colour and texture, then adding the detail with hand embroidery to tell the story. My work for BAW, inspired by social history and people, includes eco printing, vintage fabrics and embroidery on things I have made or found.

A collection of local artists' work will be exhibited in the Westbury Arts Centre Barn (on the right of the path to the house). I will have a few of my newest lino prints available to view and purchase. Work on view 8th-16th, but I will be present 12th-15th, 11am-4pm, and Sunday 16th, 11am-1pm.

I'm fired by the challenges of working from life. This informs all my art: portraits & figure studies in the form of paintings, drawings, sculpture - in oils, watercolours, pastels & clay. A member of Artist Collective @ Westbury, you'll find me in Studio 6. Open on 12th/13th by appointment only.

Westbury Arts Centre, Foxcovert Road, Shenley Wood, MK5 6AA

With degrees in both textiles and biodiversity, the natural world is my palette. Weaving a tapestry can take many months and the methodical construction is a sensory and mindful experience. Each piece is woven by hand, building from the bottom up and covering a vertical framework of threads.

Westbury Arts Centre, Foxcovert Road, Shenley Wood, MK5 6AA

I look forward to welcoming you to my leafy studio, where you can browse a range of figurative paintings and drawings, primarily made with oil, charcoal and soft pastel, of a variety of subjects.

Westbury Arts Centre, Foxcovert Road, Shenley Wood, MK5 6AA

I am an oil painter specialising in figurative work and portraits. I'm really interested in how the body and face tell the story of our lives. Our body keeps the score of all of our traumas, joys, struggles and triumphs and I use painting and drawing as a way to understand and reflect this.

Photographs and digital drawings which illustrate my tendency for strong composition in a somewhat enigmatic setting, often in a two dimensional space.

The Council Rooms, 28 High Street, Winslow, MK18 3HF

Brian worked in advertising and design as an art director working on major brands for over 50 years, and has always loved the graphic arts. Now he can follow his other great love - designing and making things from light sculptures to nursery furniture to graphic posters.

The Council Rooms, 28 High Street, Winslow, MK18 3HF

Monumental garden totems built up from wheel thrown forms, to whimsical designs inspired by nature and architecture. Also, functional pots in stoneware and porcelain. BPSS member. Exhibiting with a wonderful group of artists all with lively contemporary work. Free parking and local café nearby.

I work mainly in stoneware. Most of the work is wheel thrown with a loose link to functionality. I am interested in form and colour and I like to explore new ideas and techniques. This results in work which is varied with little repetition.

Big and small needle felted sculptures inspired by nature and general life. I tangle and shape wool into various forms using a barbed needle. My subject matter is eclectic and aims to conjure amusement, or an understanding, to its audience.

12 Marriotts Lane, Haddenham, HP17 8BN

A desire to paint came about when I retired. With no formal training I experimented with different mediums and now work predominantly in acrylics. My preferred subjects are land and seascapes, both abstract and realistic. I work in my garden studio in Haddenham.

I am a mixed-media artist, currently working in photography, digital collage, acrylic painting and hand embroidery. Inspiration for my artwork comes from combinations of colours, patterns and shapes in the environment around me, as well as the media and techniques that I use to create the artwork.

An eclectic mix of colour and monochrome landscape, wildlife and abstract photography displayed in a church setting along with work by 8 other artists and makers. Refreshments and nearby free parking available (on the A4129 at the Princes Risborough end of Kingsey, approx. 150m from the Church).

The Bungalow is behind the red gates at rear of Enterprise Rent-a-Car, which is 29 Stoke Road on the gyratory (directly opposite the Shensha Indian restaurant). Coming from Aylesbury on A413 bear right on the gyratory towards Stoke Mandeville hospital, Enterprise is on the left before the bridge.

The themes of my work are the vessel as a medium for artistic expression, and the infinite variations within a natural population. I have created small 'populations' of thrown and turned vessels, each different, but each reflecting others in the group.

New group name and new venue - same group of fabulous artists working in ceramics, textiles, glass, paintings, jewellery and so much more! Formerly at Flexmore Barn and Timms Cottage, now exhibiting at Bledlow Ridge Village Hall and showing more of my quirky fun ceramics - see if any catch your eye!

Showing my latest dynamic, expressive, luxurious abstracts - from small scale to statement pieces - at this new venue until 16th June. Sharing with many talented artists formerly at Flexmore Farm. After that you can catch me in Galleria On The Green in Chalfont St Giles - see separate entry.

Previously known as Flexmore Arts & Crafts, here we are exhibiting together again - in a new venue with our new name - we are the Reflex Arts Collective! Happily mixing it up with paint, textiles, metal, clay and more, we look forward to welcoming you.

Karen is an experimental artist who works in both mixed media and printmaking. Inspired by different methods of working, and interpretations of the landscape, still life, and abstraction.

Paintings of the Chilterns and surrounding areas. My work revisits a classic era of Railway poster design, recreated in the vibrant tones of 1930's travel art. I paint in gouache on paper. I'll be showing a range of local prints, cards and local history books. Historic photographs, postcards, local knowledge, and rose-tinted spectacles are blended perfectly!

There are 3 strands to my art. 1. Animal masks - evoking the essence of the animal from a human perspective. 2. The human experience - exploring human connections to show a feeling in a semi abstract way. 3. Silver and copper jewellery - creating smaller wearable sculpture.

Richard and Carol have been collaborating for around 16 years. They make sculptures and some functional ceramics. These may be Raku fired or high fired in an electric kiln. The dust catchers are often animals or birds mounted on antique or found objects. The aim is to bring a smile to everyone!

Caroline is a sculptor based in Amersham and exhibits extensively around Buckinghamshire. Her work includes indoor and outdoor pieces specialising in organic, human, and animal forms.
